EJERCICIOS DE SQLInjection

Ejercicios de SQLInjection resueltos

The screenshot shows the PortSwigger Web Security Academy interface for SQL Injection labs. The browser address bar displays 'portswigger.net/web-security/all-labs#sql-injection'. On the left is a blue sidebar with navigation icons. The main content area is titled 'SQL injection' and lists four exercises, each with a 'LAB' icon, a difficulty level, a description, and a 'Solved' status.

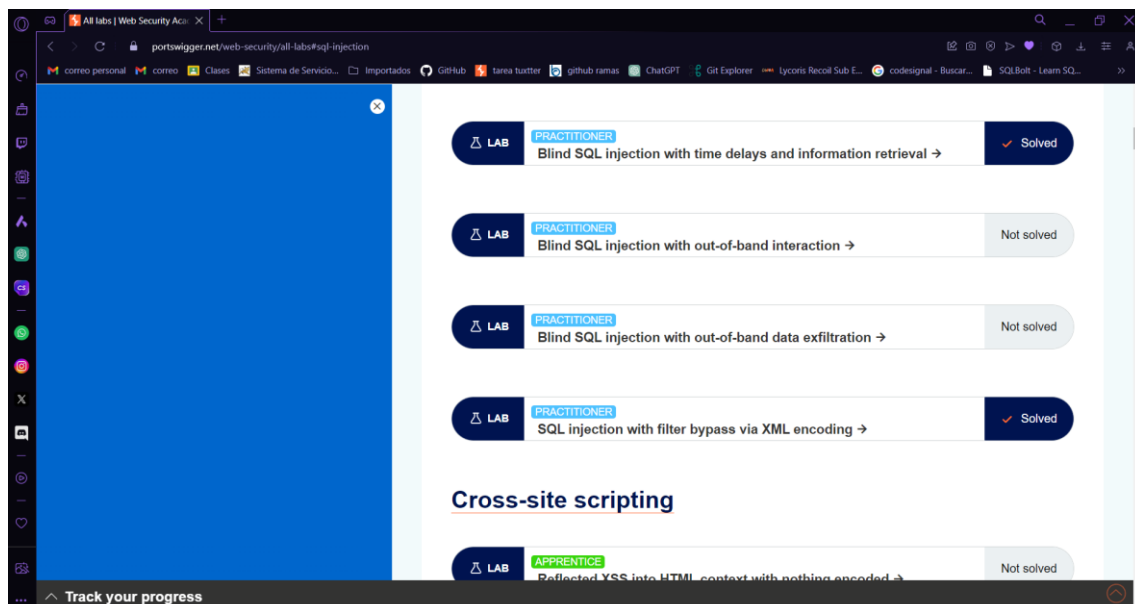

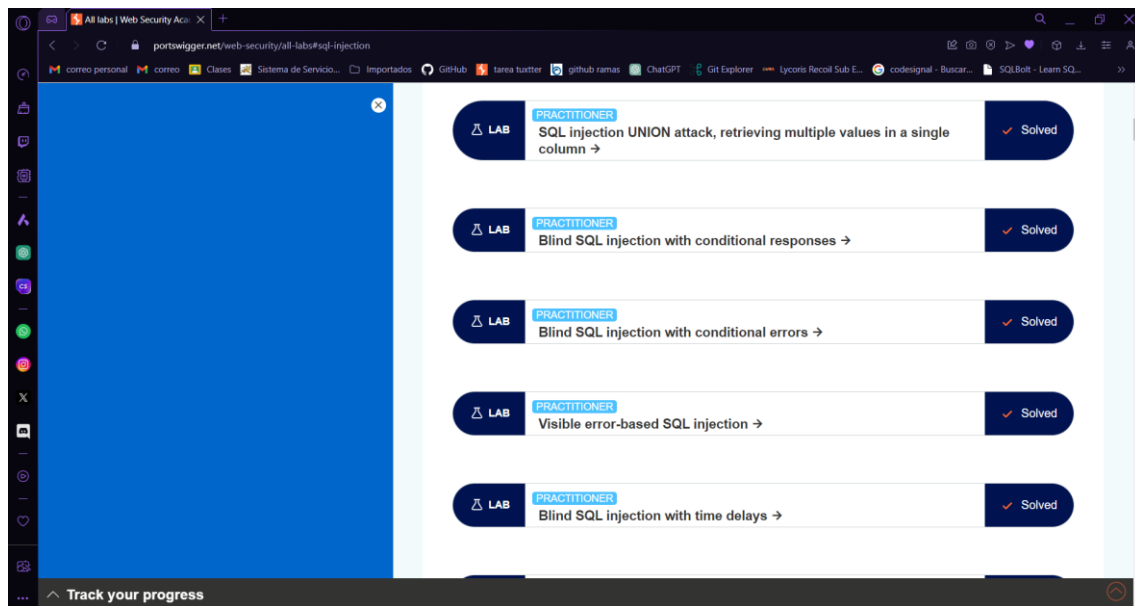

LAB	Difficulty	Description	Status
SQL injection vulnerability in WHERE clause allowing retrieval of hidden data →	APPRENTICE	✓ Solved	
SQL injection vulnerability allowing login bypass →	APPRENTICE	✓ Solved	
SQL injection attack, querying the database type and version on Oracle →	PRACTITIONER	✓ Solved	
SQL injection attack, querying the database type and version on MySQL and Microsoft →	PRACTITIONER	✓ Solved	

At the bottom of the sidebar, there is a 'Track your progress' button.

This screenshot shows the continuation of the SQL Injection labs on the PortSwigger Web Security Academy. It displays five more exercises, all marked as 'Solved'. The layout is consistent with the previous screenshot, showing the 'LAB' icon, difficulty level, description, and status for each exercise.

LAB	Difficulty	Description	Status
SQL injection attack, listing the database contents on non-Oracle databases →	PRACTITIONER	✓ Solved	
SQL injection attack, listing the database contents on Oracle →	PRACTITIONER	✓ Solved	
SQL injection UNION attack, determining the number of columns returned by the query →	PRACTITIONER	✓ Solved	
SQL injection UNION attack, finding a column containing text →	PRACTITIONER	✓ Solved	
SQL injection UNION attack, retrieving data from other tables →	PRACTITIONER	✓ Solved	

The 'Track your progress' button remains visible at the bottom of the sidebar.

Los ejercicios de SQLinjection que están puestos como no resueltos se tiene que hacer con la edición de pago, por eso aparecen así ya que requieren un apartado el cual solo lo contiene la versión profesional.
